2009 Stimulus Bill – Section 179 How can it help your business?

Telecommunications equipment and software should qualify for up to double the normal benefit for purchases made in 2009

What is the Section 179 Deduction??

Essentially, Section 179 of the IRS tax code allows businesses to deduct an accelerated amount of the qualifying equipment purchased or financed during the tax year. That means that if you buy (or lease) a piece of qualifying equipment, in some cases, you can deduct up to the FULL PURCHASE PRICE from your gross income. It's an incentive created by the US Government to encourage businesses to invest.

Essentially, Section 179 works like this:

When your business buys certain pieces of equipment, it typically gets to write them off a little at a time through depreciation. In other words, if your company spends \$50,000 on a telephone system, it typically gets to write off only \$10,000 a year for five years (these numbers are only meant to give you an example.)

Under the Stimulus Bill, it is possible for a company to write off the entire \$50,000 amount of the purchase in the first year!

Telephone systems do fall under approved equipment but you must act fast! We are available to help you take advantage of this opportunity.

For more information please access the Section 179. org website at: <http://section179.org/index.html>

The Leading Products Gregg Communications Represents

ShoreTel – IP Telephony

ShoreTel's most elite partner tier!!

Star2Star - Internet Telephony

Zultys – VoIP Solutions

eOn – Contact Center Solutions

Vertical / Comdial – VoIP Solutions, IP-enabled & Traditional PBX systems

Sonexis – Audio & Web Conferencing

Oaisys – Conversation recording & evaluation tools

Syntellect – Contact Center Solutions

Fax Back - VoIP Fax Solutions

Call Copy – Call Recording

The screenshot displays the 'cc: Discover' web interface. At the top, it shows the user is logged in as 'supervisor'. Below the navigation menu, there is a table of call recordings with columns for Record No., First Name, Last Name, Voice Port, Time Recorded, Duration, Video, and Review. The table lists several records, with the record for 'DON BLACKWELL' highlighted in green. To the left of the table is a sidebar with various menu items like 'Permissions', 'Settings', 'Scheduling', 'Reporting', 'QA', and 'Tag Cloud'. Below the table, there are two overlapping windows: one for 'Call Playback' and another for 'LEADS: MICHAEL SHEELY' showing lead information.

Wave IP™ Business Communications Systems: The Future is Calling.

The Wave Platform is the latest offering from Vertical and it includes many new features and capabilities, such as the Viewpoint call manager that enables users to control telephone and voice mail features from their PC workstation. We have a special migration plan to allow Comdial system users to upgrade to the Wave while in most cases being able to utilize existing telephones.

Call us for more details.
